at it in a strange manner bit stumbled where a closeup shot  
is set to the courier.

THE PROTAGONIST

The protagonist is lying on the bed dull and looking away(window) as his friend confronts him.

His friend notices that the protagonist is not listening to him and stops talking

FRIEND

(sighs)I know what you are going through I feel sad for you too. it is not just you who lost someone important in your life, she was a good friend of mine to

THE PROTAGONIST

I'm sorry I am trying.. it's just I can't get over it.

FRIEND

It's ok I know it is a hard time for you. you can't just stay in the past forever

THE PROTAGONIST

Why not? She is there. I get to see her

FRIEND

so living in the Delusion for the rest of your life is your idea?

The Protagonist signs "I guess" by shrugging his shoulders, while his friend looks away

THE PROTAGONIST

I know how much trouble I've been causing you lately I'm sorry.

FRIEND

can't blame you. you were crazy  
about her.

pause....

do you mind if I ask you this one  
question?

THE PROTAGONIST

go on..

FRIEND

would you feel the same way.. I  
mean what would be the intensity of  
your longing in case you told her  
that you have feelings for her?

THE PROTAGONIST

I honestly don't know. and I don't  
think I want to know it either

FRIEND

well honestly it's for the best I  
guess

THE PROTAGONIST

what do mean by that? do you think  
that she might have rejected me if  
I had proposed to her?

FRIEND

well....It's a statistical  
inevitability

THE PROTAGONIST

well now I wanna know what she  
might have said, except for the  
fact that we'll never know it.

Long pause

(the protagonist Hits his  
friend with the newspaper  
and yells In an angry  
tone)

Bro, I have known that woman for 4  
years I know what she might have  
said and Yes she would have  
definitely said YES

FRIEND

Don't get all angry.....(pause)  
do you know that back in 2018  
Facebook came up with a new type of  
chatbot that lets us talk with the  
dead?

THE PROTAGONIST  
what is it some sort of seance?

FRIEND  
I don't know exactly let me google  
(Friend Google on The  
protagonist's laptop and  
read the search result)

It is called the "Remembrance chatbot" and was first announced in 2021. The chatbot is trained on the data of the deceased person, including their social media posts, photos, and messages. This allows the chatbot to mimic the person's voice and mannerisms, and to have conversations that are relevant to the person's interests.

THE PROTAGONIST  
are you Insisting me to try this ..  
(stumbles) stupid chatbot

FRIEND  
what I am trying to implement here  
is that what if her answer was a no  
That might make you feel better in  
a way

The protagonist sighs and gets up walks towards the window and stares outside the window

meanwhile, the Friend gets a phone call and goes outside to attend the call while The protagonist looks into the laptop where the article about the chatbot is opened in the tab

MATCH CUT TO:

5 INT. BACK TO SCENE 3

5

[5 YEARS LATER, YEAR 2030]

The protagonist stares at his laptop and begins loading the hard drive. It is raining outside.

once it is loaded he reads the manual that is displayed on the laptop screen which has the following instructions

BOT (ID)

Welcome user, we Have made this chatbot on your request with the data you have provided to us and we would like to inform you of its functions and limitations. As these Chatbots are only in their early stage(beta mode) and with the limited data you have provided your bot is designed in a way that can answer only up to 3 prompts and last only up to 5 minutes. after that, the bot will terminate itself in order to attain virtual mortality which is a rule implemented by the government in order to protect Information or identity theft.

hope you like it and use your prompts wisely

Press enter to continue

(The protagonist begins  
to continue and the  
screen loads)

The chatbot first displays a text Hi, I am Ana  
(It begins to talk in  
Ana's voice)

Hearing her voice after a long while The protagonist gets emotional and he Nevrouslly leans forward into his laptop

his hands become shaky

He slowly begins to type in his first prompt

1st prompt

THE PROTAGONIST

Hi ANA I'm (Name) what did you like  
the most in me?

BOT

what I like in you.....Hmmm Hmmm  
(chuckles) In a world where  
everyone runs for lust you ran for  
romance...and I found that quite  
romantic.

The protagonist chuckles and begins to sob

He slowly begins to type in his second prompt

THE PROTAGONIST

As you are dead what do you hate  
about me the most?

BOT

Hate is a harsh word against you.  
 but there are some things I don't  
 like about like our fight we had  
 just before my death where you got  
 possive over the fact that I didn't  
 talk to you and talking to my  
 friend. even though death was a  
 cruel part the fact we couldn't end  
 things on a good note will haunt us  
 forever. but it's ok happy endings  
 are not actual endings. the best we  
 can do is to yearn for a happy one.

The protagonist cracks down at this point and cries.

Then upon noting there is only a minute left on the clock he  
 begins to type in his final question

The Protagonist braces himself to type in the Question

THE PROTAGONIST  
 Ana, Do you love me?

The system begins to load the answer....It keeps on loading  
 for a long time when the protagonist realizes the power is  
 down due to rain. He gets Frustrated

THE PROTAGONIST  
 oh no no no no.....

He tries to connect his mobile data but it is not working  
 either after a while the power comes back He logs back into  
 the laptop only to find out that he ran out of quories and  
 the bot didn't construct the final answer.

He stays stunned and the Power goes again

FADE TO BLACK.

THE PROTAGONIST  
 (Screams)  
 no no Fuck fuck FUCKKKKKKKK!

THE END
